

Murder on a mountain

Assignment 6

Adding new records

During the new investigation, 5 further tourists were discovered who were not entered into the original database.

- Add these to your database using the form. Hint: move to the end ie. record 75 using the arrows at the bottom of the form, and then move on one to enter the new data into the form. Move on one for each new record.

ID	Date	First Name	Last Name	Car Licence	Home Town	Local Phone	Home Phone	Departure	Return	Hair Colour	Boot Size	Climb Time
76	07/07/01	Silvia	Smithe	FKI-456	Seattle, WA	254-908	586-8904	09:34:00	18:54:00	brown	8	7
77	15/05/01	Neale	Ryan	RED-908	New York, NY	264-789	568-2341	08:05:00	19:24:00	black	7	8
78	06/07/01	Heather	Reader	DER-785	Amherst, MA	897-123	586-1234	08:55:01	18:45:00	blond	6.5	6
79	07/07/01	Jack	Spratt	FRE-675	New York, NY	264-756	586-2314	09:30:00	19:30:00	brown	7	5
80	07/07/01	Eleanora	Springston	FKI-962	New York, NY	993-456	586-8475	09:30:00	19:30:00	red	8	0

Your database should show that it contains 80 records.

The new enquiry

Following an appeal on the television two separate witnesses come forward and give vital information. Work through each of the witness statements using the form filters only. Remember if you are using 'or' that you must enter the other filters for a second time.

Witness Statement 1

'On the 7 July as I was leaving the hotel at 09.30 I saw the dead man leave with a woman. I think she had red or brown hair. I noticed that

her shoes were bigger than mine. I take size 6. I went for a walk and had lunch out. I sat and watched the skiers during the afternoon. I returned at 7.30 that evening. She walked into the hotel with me. I did think it was odd that she didn't have her friend with her but didn't have time to ask after him.'

Witness Statement 2

'Yes, I saw him arrive with a woman. The car came from New York I think. Her luggage was a very smart leather set with the initials E. S. on it. I guess her first name must begin with E and her last perhaps with S. They both climbed up the slopes with me on the 7th. She followed me down but the man wasn't with her. I'd spent 7 hours climbing that day.'

- Do the resulting searches match?
- Have you found the murderer?
- Add your result to your solutions under Day 4.
